GAMEPLAY GUIDE

Objective

- Defend earth from all asteroids

Controls

- Touch Control
- Tap on turrets to open upgrade menu to either upgrade or destroy them.

Gameplay

- Asteroids increase in health and damage after you defeat a boss
- Boss' health also increases as you defeat more of them
- You accrue plutonium and titerarium from destroying asteroids.
- Plutonium is used to buy and upgrade base turrets.
- Titerarium is used to buy and upgrade special turrets.
- Tap on Special Abilities Icons on the bottom right (Ensure that you have enough plutonium to use ability).

Scoring System

- Your score is based on how many asteroids you have defeated.
- Your time is based on how long you survived.

TABLE OF CONTENTS

- 2. Special Abilities**
- 3. Upgrades and Progression**
- 4. Enemy Asteroids**
- 5. Boss Battles**

1. TURRETS AND GUN MECHANICS

Normal Turrets

Your default turret fires standard projectiles. It can be upgraded or replaced using blueprints to unlock advanced weapon types.

1.1 Turrets Upgrades

Piercing Turrets

- **Description:** Bullets penetrate multiple asteroids, dealing damage in a straight line.
 - **Damage:** 15 per impact.
-

Fire Turrets (Area of Effect)

- **Description:** Launches an explosive fire projectile that burns all asteroids within its area.
 - **Damage:** 5 per second.
 - **Duration:** 5 seconds.
-

Ice Turret (Slowing effect)

- **Description:** Fires a chilling projectile that creates a freezing zone, slowing and damaging asteroids
 - **Damage:** 3 per second.
 - **Duration:** 5 seconds.
-

2. SPECIAL ABILITIES

Black Hole

- **Effect:** Instantly wipes all asteroids from the battlefield.
 - **Mechanics:** Sends a universal “terminate” signal to all active asteroids, setting their health to zero.
 - **Boss Effect:** Instantly removes 20% of boss health.
-

Shock Wave

- **Effect:** Emits a massive wave that stuns and pushes back asteroids by 30% of the screen distance.
 - **Mechanics:** Stops asteroid movement upon contact, then pushes them away along the Y-axis.
-

Planetary Shield

- **Shield Strength:** 20 HP
 - **Effect:** Deploys a protective barrier around Earth. All damage is absorbed by the shield until it depletes or expires.
-

3. UPGRADES AND PROGRESSION

Turret Levelling

- **Starting Level:** 1

Each upgrade increases turret performance — rate of fire, range, and elemental potency — based on type.
